

This country profile highlights trends in poverty, domestic public resources and international finance based on the latest available data.

## Overview

HOW MANY OF THE  
POOREST 20% OF PEOPLE  
GLOBALLY LIVE IN CHAD?

**5.4**  
million

WHAT RESOURCES ARE  
AVAILABLE?

Domestic public  
**US\$2.3bn**  
International  
**US\$1.3bn**

HOW MUCH DOES THE  
GOVERNMENT SPEND  
PER PERSON?

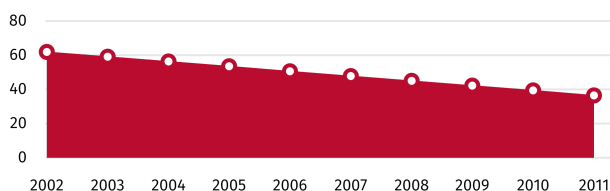

**PPP\$460**  
See Notes

HOW DEEP IS POVERTY?

**14%**  
Depth of poverty

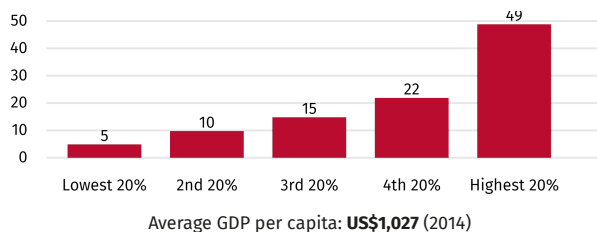

### Trends in extreme poverty

2000-2014, % of population living on under \$1.25 per day

### The distribution of income

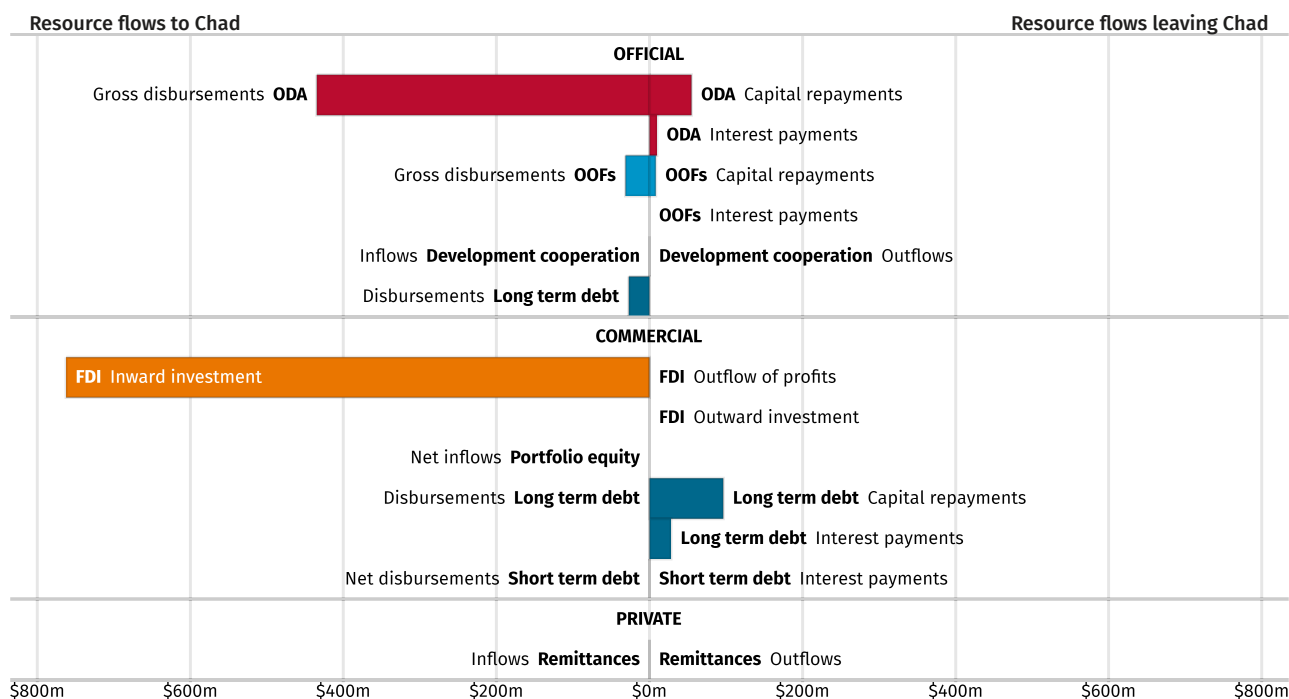

2014, share of income of bottom 20% of population

## Resource flows to and from Chad

### Official, commercial, private and estimated illicit flows

2014, international resource inflows and outflows (US\$ billions, constant 2012 prices)

Notes: We define extreme poverty as measured using the \$1.25 (PPP 2005) extreme poverty line. Purchasing power parity (PPP) prices are the rate at which a country's currency would have to be converted into that of another country to buy the same amount of goods and services in each country. PPPs are constructed by comparing the cost of a common basket of goods in different countries. Depth of poverty is a measure of the average gap in incomes for people living below the poverty line spread across the population of the whole country, expressed as a percentage of the \$1.25 a day poverty line. 'Domestic public resources available' refers to the total non-grant revenue either collected or projected to be collected by the government in the financial year 2014.

## Government finance

### Revenue and grants

2013, latest year of actual revenue (US\$ billions, constant 2012 prices)

Total Revenue and grants 100% of total   US\$2.5bn	Grants 9% of total   US\$0.2bn	Project Grants 9% of total   US\$0.2bn	Tax Revenue 39% of total   US\$1bn
	revenue 91% of total   US\$2.3bn	Non-Oil Revenue 39% of total   US\$1bn	
		Oil revenue 50% of total   US\$1.3bn	

### Financing

2013, latest year of actual financing (US\$ billions, constant 2012 prices)

Financing 100% of total   US\$0.6bn	Net External Finance -41% of total   US\$-0.3bn	Disbursements 18% of total   US\$0.1bn
		Amortization -58% of total   US\$-0.4bn
	Net Domestic Finance 141% of total   US\$0.9bn	Bank Financing 60% of total   US\$0.4bn
		Privatization 91% of total   US\$0.6bn

### Expenditure

2013, latest year of actual expenditure (US\$ billions, constant 2012 prices)

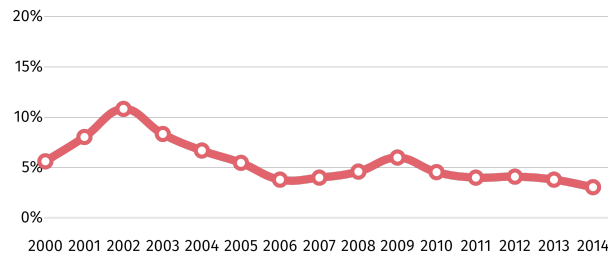

Total Expenditure 100% of total   US\$3.2bn	Recurrent Expenditure 56% of total   US\$1.8bn	Wages And Salaries 22% of total   US\$0.7bn
		Goods And Services 10% of total   US\$0.3bn
		Subsidies And Transfers 21% of total   US\$0.7bn
	Investment Expenditure 44% of total   US\$1.4bn	Externally Financed 10% of total   US\$0.3bn
		Domestically financed 33% of total   US\$1.1bn

Notes: Year of data refers to the fiscal year 2014 running from January to December and is sourced from: Chad: Second Review Under the Extended Credit Facility Arrangement, and Requests for Waivers of Nonobservance of Performance Criteria and for Modification of Performance Criteria-Press Release; Staff Report; and Statement by the Executive Director for Chad December 21, 2015. The pink boxes represent negative values, typically showing repayments of loans under financing. Some labels have been omitted from these visualisations; for these, and those that are too small to read, please refer to the online country profile page on the Development Data Hub for more details.

# ODA

## ODA and national income

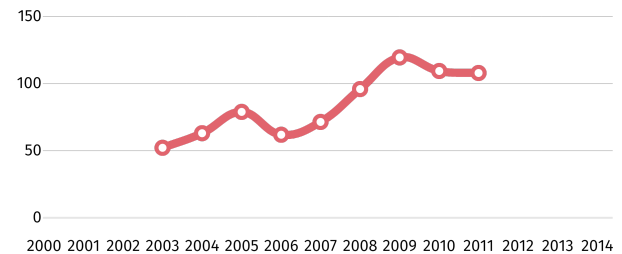

Gross ODA % of GDP

■ Total ODA as a % of GDP ■ Total ODA (excl-non-transfer) % of GDP

## ODA per poor person

ODA per person living under \$1.25 a day

■ Total ODA as a % of GDP ■ Total ODA (excl-non-transfer) % of GDP

## The bundle of ODA

2014, gross disbursements

Note: GPGs, global public goods; NGOs, Northern non-governmental organisations.

## The bundle of ODA from the 10 largest providers

2014, US\$ millions, gross disbursements

### Aid from the ten largest donors

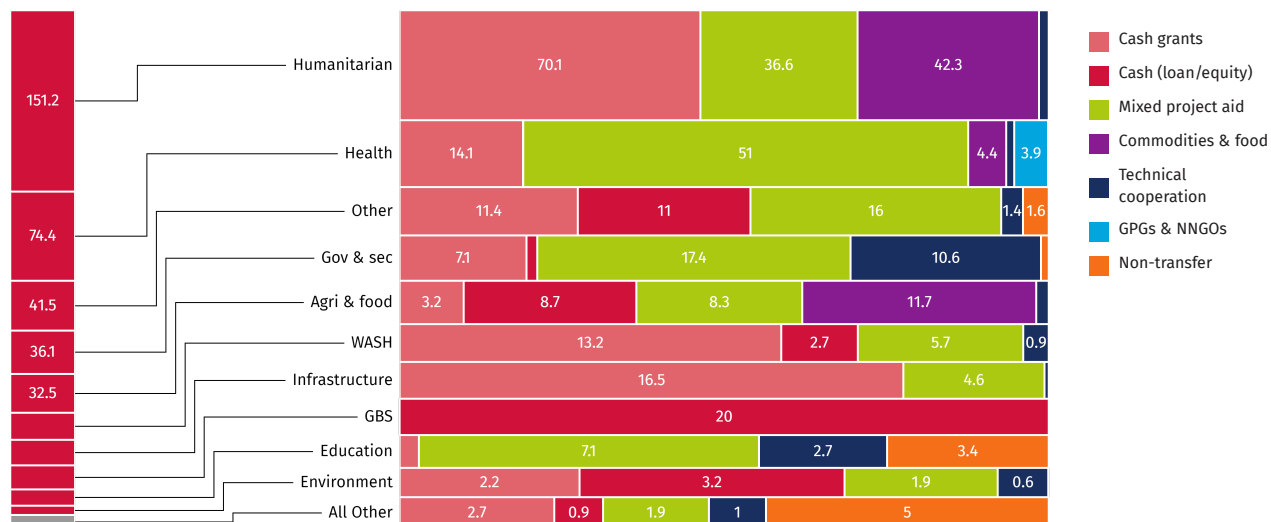

Note: ODA is equivalent to an average 0.64% of GDP across all developing countries. We define extreme poverty as measured using the \$1.25 (PPP 2005) extreme poverty line.

## What is aid spent on?

### The bundle of ODA to the 10 largest sectors

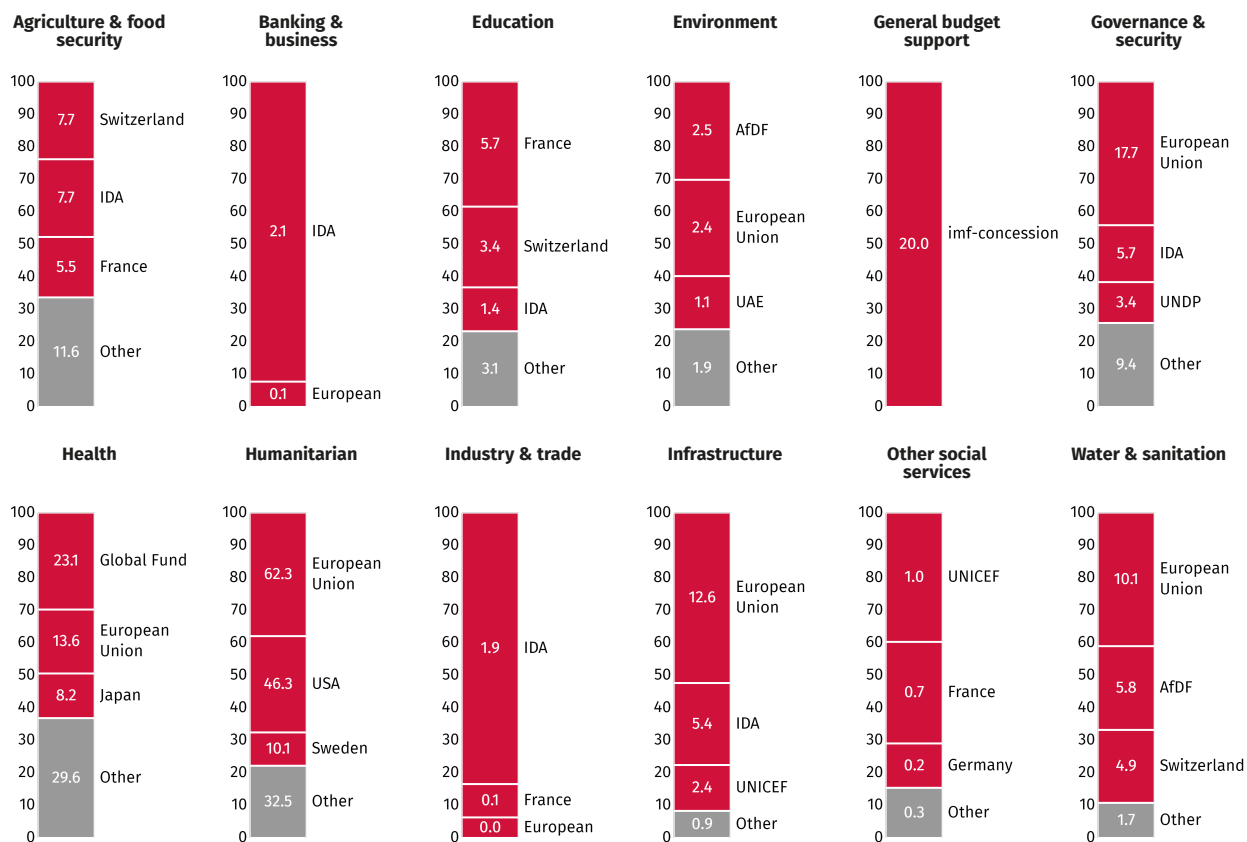

2014, US\$ millions, gross disbursements

#### Total aid by sector

### The largest providers to each sector

2014, gross ODA, % of total (US\$ disbursements in columns)

Notes: Data is from the OECD Development Assistance Committee (ODA and other official flows data), the World Bank (long-term debt, remittances, gross national income (GNI) and poverty), the United Nations Conference on Trade and Development (FDI), IMF article IV publications (domestic revenue and expenditure), Global Financial Integrity (illicit financing and trade mispricing). Other official flows (OOFs) are typically loans that are either not sufficiently concessional to count as ODA, or are mainly in support of commercial objectives, such as donor exports. All data in US\$ is in 2012 prices. 'Other' sector aid includes multisector ODA, administrative costs, support for refugees in the donor country and unallocated or unspecified ODA. Acronyms: FDI: foreign direct investment; IMF: International Monetary Fund; OECD: Organisation for Economic Co-operation and Development; OOFs: other official flows.
