

This country profile highlights trends in poverty, domestic public resources and international finance based on the latest available data.

Overview

Trends in extreme poverty

2000-2014, % of population living on under \$1.25 per day

The distribution of income

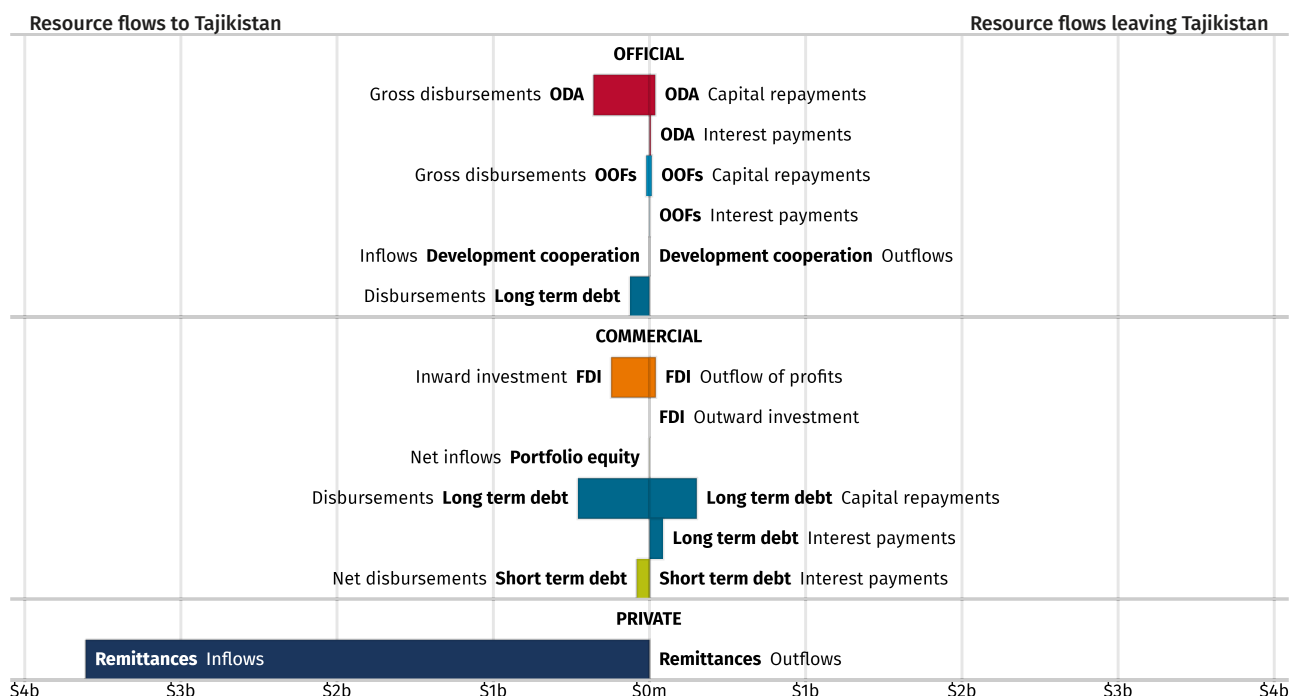

2014, share of income of bottom 20% of population

Resource flows to and from Tajikistan

Official, commercial, private and estimated illicit flows

2014, international resource inflows and outflows (US\$ billions, constant 2012 prices)

Notes: We define extreme poverty as measured using the \$1.25 (PPP 2005) extreme poverty line. Purchasing power parity (PPP) prices are the rate at which a country's currency would have to be converted into that of another country to buy the same amount of goods and services in each country. PPPs are constructed by comparing the cost of a common basket of goods in different countries. Depth of poverty is a measure of the average gap in incomes for people living below the poverty line spread across the population of the whole country, expressed as a percentage of the \$1.25 a day poverty line. 'Domestic public resources available' refers to the total non-grant revenue either collected or projected to be collected by the government in the financial year 2014.

Notes: Data is from the OECD Development Assistance Committee (ODA and other official flows data), the World Bank (long-term debt, remittances, gross national income (GNI) and poverty), the United Nations Conference on Trade and Development (FDI), IMF article IV publications (domestic revenue and expenditure), Global Financial Integrity (illicit financing and trade mispricing). Other official flows (OOFs) are typically loans that are either not sufficiently concessional to count as ODA, or are mainly in support of commercial objectives, such as donor exports. All data in US\$ is in 2012 prices. 'Other' sector aid includes multisector ODA, administrative costs, support for refugees in the donor country and unallocated or unspecified ODA. Acronyms: FDI: foreign direct investment; IMF: International Monetary Fund; OECD: Organisation for Economic Co-operation and Development; OOFs: other official flows.
