Notes: We define extreme poverty as measured using the \$1.25 (PPP 2005) extreme poverty line. Purchasing power parity (PPP) prices are the rate at which a country's currency would have to be converted into that of another country to buy the same amount of goods and services in each country. PPPs are constructed by comparing the cost of a common basket of goods in different countries. Depth of poverty is a measure of the average gap in incomes for people living below the poverty line spread across the population of the whole country, expressed as a percentage of the \$1.25 a day poverty line. 'Domestic public resources available' refers to the total non-grant revenue either collected or projected to be collected by the government in the financial year 2014.

Domestic resources

Revenue and grants 2013, latest year of actual revenue (US\$ billions, constant 2012 prices)
NO DATA AVAILABLE
Financing 2013, latest year of actual financing (US\$ billions, constant 2012 prices)
NO DATA AVAILABLE
Expenditure 2013, latest year of actual expenditure (US\$ billions, constant 2012 prices)
NO DATA AVAILABLE

Notes: Year of data refers to the fiscal year. The pink boxes represent negative values, typically showing repayments of loans under financing. Some labels have been omitted from these visualisations; for these, and those that are too small to read, please refer to the online country profile page on the Development Data Hub for more details.

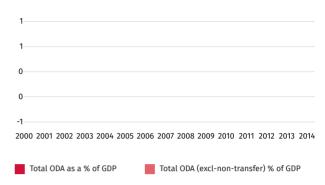

ODA and national income

ODA per poor person

ODA per person living under \$1.25 a day

The bundle of ODA

2014, gross disbursements

 ${\it Note:}~{\it GPGs, global public goods;}~{\it NNGOs, Northern non-governmental organisations.}$

The bundle of ODA from the 10 largest providers

2014, US\$ millions, gross disbursements

Aid from the ten largest donors

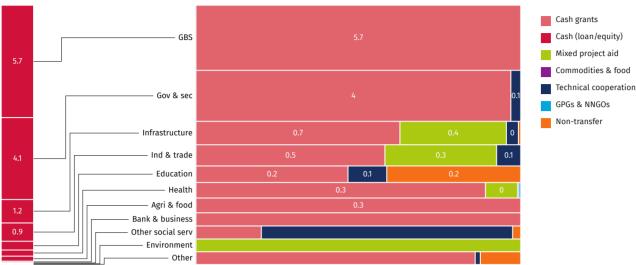

Note: ODA is equivalent to an average 0.64% of GDP across all developing countries. We define extreme poverty as measured using the \$1.25 (PPP 2005) extreme poverty line.

What is aid spent on?

The bundle of ODA to the 10 largest sectors

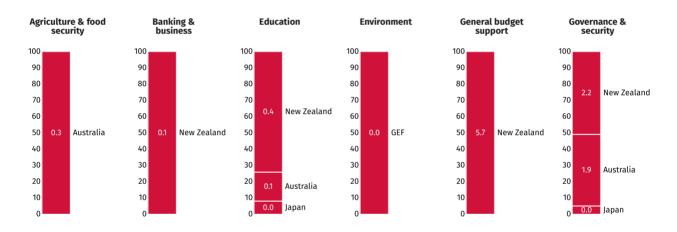

2014, US\$ millions, gross disbursements

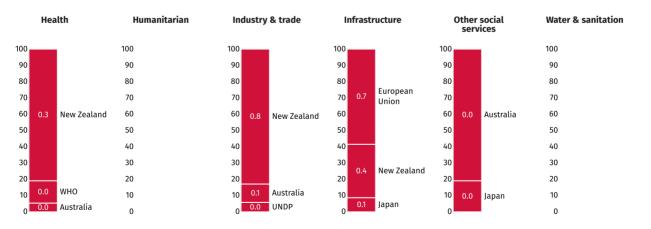

The largest providers to each sector

2014, gross ODA, % of total (US\$ disbursements in columns)

Notes: Data is from the OECD Development Assistance Committee (ODA and other official flows data), the World Bank (long-term debt, remittances, gross national income (GNI) and poverty), the United Nations Conference on Trade and Development (FDI), IMF article IV publications (domestic revenue and expenditure), Global Financial Integrity (illicit financing and trade mispricing). Other official flows (OOFs) are typically loans that are either not sufficiently concessional to count as ODA, or are mainly in support of commercial objectives, such as donor exports. All data in US\$\$\frac{1}{2}\$ in 2012 prices. 'Other' sector aid includes multisector ODA, administrative costs, support for refugees in the donor country and unallocated or unspecified ODA. Acronyms: FDI: foreign direct investment; IMF: International Monetary Fund; OECD: Organisation for Economic Co-operation and Development; OOFs: other official flows.
